

2010 Inclusion Solutions New Products

Election Series Ramps (Threshold and Pathway Styles)

- These are the *first ramps custom-designed for temporary use at elections*
- Ramps must ideally be 36 inches wide for election use under ADA standards. These are the first aluminum threshold ramps to meet this width requirement
- Ramps are of extruded, anodized aluminum and are built to the same high standards of original threshold ramps

EST1\$69 **EST15**.....\$84 **EST2**.....\$99

- Pathway ramps also include 2 inch curb as required by ADAAG
- Lightest possible weight for 36 inch wide ramp – making these the most usable 36 inch wide ramps for pollworkers
- Skid resistant surface, 600 lb weight capacity: No assembly or folding required
- Lightweight and cost-effective version of pathway ramps are best for election use

ESPL2.....\$219 **ESPL3**\$279 **ESPL 4**.....\$339
ESPL5\$399 **ESPL6**\$479

Cost-Effective Door Automation

- Inclusion Solutions has partnered with Stanley Access Technologies to bring cost-effective power doors to your polling places and government facilities
- Push plate activation switches, electric strikes, and power to operator included
- System performs to ANSI 156.19 standards One-year warranty on parts and labor
- Prices are for standard installations – electric work or other additional prep. extra
- In most cases we can send a *technician for an evaluation free of charge*
- Please visit <http://inclusionsolutions.com/Advocacy/documents/SurveySheet.pdf> to complete our no-cost field survey for door automation and fax to 847-869-2515
