

introducing our new **UNITED BOOTH[®]**

UNIVERSAL COMPATIBILITY

Designed to work with both paper and machine voting applications, the United Booth offers a versatile solution for different voting scenarios and equipment.

UNIVERSAL ACCOMODATION

Adjustable height allows for voting in standing or seated modes, meeting ADA guidelines to guarantee accessibility and inclusivity for the broad spectrum of your voters.

DURABLE DESIGN

Built to last with a durable 35 lb weight and 250 lb capacity, providing stability and durability for heavy voting machines or the full leaning weight of a voter. Folds down quickly with minimal loose parts, making it easy to set up, break down, and store.

YOUR BOOTH, YOUR WAY

Full range of accessories will also be available, including curtains, illuminating lights, and carrying bags.

DELIVERY FOR FALL 2024
